UX DESIGNER | PRODUCT DESIGNER

I am a highly skilled professional with expertise in all phases of user experience design, product design, and front-end web development. With decades of experience, I am deeply passionate about developing innovative, user-centered design solutions translating complex data and scenarios into seamless, intuitive, and high-quality customer experiences across a variety of platforms.

key strengths that contribute to my success in my preferred roles:

▸ Analytical & Critical Thinking:

I excel at transforming complex and diverse data into elegant, intuitive user flows. I'm skilled at identifying alternative solutions and approaches to problems, ensuring optimal outcomes.

▸ Active Listening:

I engage deeply with clients and stakeholders, asking thoughtful, clarifying questions to gain valuable insights and develop effective solutions.

▸ Communication:

I possess exceptional verbal, written, and visual communication skills, ensuring clarity and understanding at every stage of a project.

▸ Cross-Discipline Experience:

My broad experience enables me to proactively contribute to cross-team collaboration and engage in predictive planning early in the process.

▸ Detail-Oriented & Organized:

I demonstrate accuracy and thoroughness throughout, ensuring optimal efficiency and high-quality results.

▸ Empathy:

As a dedicated user advocate, I prioritize intuitive, human-centered design solutions that address the needs and pain points of end users.

▸ Innovative & Proactive:

I develop creative, practical solutions by aligning project objectives with a deep understanding of the product or platform, always looking for ways to harness capabilities or create workarounds.

▸ Mentoring

With experience as an Adobe CC instructor, I enjoy supporting and guiding team members, helping them develop their skills and achieve their potential.

specializations:

UX/UI DESIGN:

- Created wireframes, prototypes, and interactive mockups using industry-standard design tools
- Designed user-friendly interfaces and implemented responsive design principles to ensure seamless, responsive experiences
- Worked closely with developers to ensure accurate implementation of design specifications while maintaining a high level of visual fidelity
- Developed information architecture (IA) by organizing content in a logical manner aligning with user needs and business goals
- Ensured compliance with web accessibility standards (WCAG) for an inclusive user experience
- Demonstrated strong problem-solving skills when resolving complex technical issues on live sites

PRODUCT DESIGN:

- Designed end-to-end interfaces and prototypes, integrating with existing software and proposed new development features to facilitate consistently successful conversions for complex ordering processes such as booking engines and learning management systems.
- Designed intuitive experiences by understanding the intersection of customer needs, project requirements, and technical constraints.

WEBSITE DEVELOPMENT:

- Wrote and integrated content management systems (CMS) such as WordPress, Locomotive CMS, and CRMs such as HubSpot to enable easy content updates for clients
- Developed and maintained responsive websites using HTML, CSS, and JavaScript
- Created custom WordPress themes and plugins to meet client requirements
- Integrated third-party APIs for enhanced functionality on web applications
- Implemented SEO best practices to improve website visibility in search engine results pages (SERPs)
- Troubleshoot and debugged issues, ensuring smooth functionality

GRAPHIC DESIGN AND BRANDING STRATEGY:

- Designed logos accurately representing the client's brand identity and values
- Maintained a consistent brand image across all marketing materials, ensuring brand recognition and customer loyalty
- Created visually appealing and engaging designs for various digital and print marketing materials
